

Report on Payments to Governments

Year ended 31 December 2024

Our contribution

Woodside paid A\$4.1 billion in Australian taxes, royalties and levies to the Australian Federal and State governments in 2024. Additionally Woodside paid more than US\$600 million in international corporate taxes, royalties and production entitlements in 2024 (excludes Australia). These payments demonstrate that when Woodside performs, the governments, and more importantly the communities in which it operates, can benefit too.

About this report

This report details certain payments Woodside has made to governments. These disclosures are required by the U.S. Securities and Exchange Commission under Section 13(q) of the Securities Exchange Act of 1934, as amended. According to Rule 13q-1 and Form SD, known collectively as the 'Resource Extraction Payment Rules,' certain companies must report payments to the U.S. federal government or foreign governments for the purpose of the commercial development of oil, natural gas, or minerals.

This report covers such payments made by Woodside Energy Group Ltd and its subsidiaries (collectively, "Woodside", "we", "our" or the "group") for the fiscal year ended 31 December, 2024.

Activities

This Report includes cash and in-kind payments made to governments with respect to the commercial development of oil and natural gas involving the exploration, prospection, discovery, development and extraction for any such activity.

Government

Government is defined as the national government of a country, as well as any department, agency, or instrumentality of the national government, or a company at least majority owned by the national government of a country. Additionally, 'government' includes subnational entities, such as state, province, departmental, county, district, municipal, or territorial governments under a national government.

Project

Payments are reported at project level except for payments that are not attributable to a specific project, which are reported at the entity level. Project is defined as operational activities which are governed by a single contract, licence, lease, concession or similar legal agreement, and form the basis for payment liabilities with a government. If these agreements are substantially interconnected, then they may be treated as a single project.

Substantially interconnected means forming a set of operationally and geographically integrated contracts, licences, leases or concessions or related agreements with substantially similar terms that are signed with a government, giving rise to payment liabilities.

Materiality

In accordance with the Resource Extraction Payment Rules, payments below US\$100,000 to a government are excluded from this Report.

Reporting currency

All payments are reported in US dollars. Payments made in currencies other than US dollars are translated at the exchange rate existing at the time the payment is made.

Disclaimer

The information presented below is derived from, and should be read in conjunction with, our report on payment to governments for the year ended 31 December 2024 furnished to the U.S. Securities and Exchange Commission on 22 September 2025.

¹ The Dividends category required by the Regulations has been excluded from the table as no payments were made against this category for the year ended 31 December 2024.

² Figures are rounded to the nearest \$0.1 million.

³ Reported community and social contribution payments are those required by law or contract as required under this Form SD. Woodside makes social and community contribution payments above those required by law or contract.

⁴ The royalties collected are shared between the Western Australia State and Australian Federal Governments, and approximately 68% of the Federal royalties are paid to the State.

⁵ Production entitlement is for payments in kind for 0.7 million barrels of oil equivalent (MMboe) of crude oil and gas valued per the Production Sharing Agreement.

⁶ Production entitlement is for payments in kind for 5.7 MMboe of crude oil and gas valued per the Production Sharing Agreement.
