

North West Shelf Project Extension Proposal Compliance Assessment Report 2025

Ministerial Statement 1233

12 December 2024 – 31 December 2025

April 2026

ACRONYMS

aMDEA	Activated Methyl-diethanolamine
AQMP	Air Quality Management Plan
CAP	Compliance Assessment Plan
CAR	Compliance Assessment Report
CEO	Chief Executive Officer
ChEMMS	Chemical and Ecological Monitoring of Mermaid Sound
DCCEEW	Department of Climate Change, Energy, the Environment and Water
DWER	Department of Water and Environmental Regulation
EQG	Environmental Quality Guideline
EQS	Environmental Quality Standard
EPA	Environmental Protection Authority (WA)
EPBC	Environment Protection and Biodiversity Conservation Act 1999
KBSB	King Bay Supply Base
KGP	Karratha Gas Plant
kPa	Kilopascal
Mtpa	Million Tonnes Per Annum
LNG	Liquefied Natural Gas
LPG	Liquefied Petroleum Gas
MEQMP	Marine Environmental Quality Management Plan
mg/L	Milligrams per litre
MRAMP	Murujuga Rock Art Monitoring Program

MS1233	Ministerial Statement No.1233
NEPM	National Environment Protection Measure
NO _x	Oxides of Nitrogen
NO	Nitric Oxide
NO ₂	Nitrogen Dioxide
NTU	Nephelometric Turbidity Unit
NWS	North West Shelf
OEPA	Office of the Environmental Protection Authority
Q1	Quarter 1
Q2	Quarter 2
Q3	Quarter 3
Q4	Quarter 4
TL	Trunkline
ug/L	Micrograms per litre

	APPENDIX I: WASTEWATER MONITORING RESULTS FROM ADMIN DRAIN AND ENVIRONMENTAL QUALITY GUIDELINES FOR THE REPORTING PERIOD	56

1. INTRODUCTION

This Compliance Assessment Report (CAR) has been prepared to meet the requirements of Conditions 8-6 and 8-7 of Ministerial Statement 1233 (MS1233) under the *Environmental Protection Act 1986*, as outlined below.

Condition 8-6: The proponent must submit to the CEO the first Compliance Assessment Report fifteen (15) months from the date of issue of this Statement addressing the twelve (12) month period from the date of issue of this Statement and then annually from the date of submission of the first Compliance Assessment Report, or at another time agreed in writing by the CEO.

Condition 8-7: Each Compliance Assessment Report must:

- (1) be endorsed by the proponent's Chief Executive Officer or a person delegated to sign on the Chief Executive Officer's behalf;
- (2) include a statement as to whether the proponent has complied with the conditions;
- (3) identify all potential non-compliances and describe corrective and preventative actions taken;
- (4) be made publicly available in accordance with the approved Compliance Assessment Plan; and
- (5) indicate any proposed changes to the Compliance Assessment Plan.

1.1 Scope and Requirements

This CAR addresses the compliance status of the North West Shelf (NWS) Project Extension Proposal with MS1233 for the reporting period defined as 12 December 2024 to 31 December 2025.

As outlined above, Condition 8-7 of MS1233 outlines key requirements of the CAR. Table 1 identifies the sections of the CAR that address these requirements.

This CAR has been prepared with consideration of the following documents:

- Office of the Environmental Protection Authority (OEPA) Post Assessment Guideline for Preparing an Audit Table (OEPA, 2012)
- OEPA Post Assessment Guideline for Preparing a Compliance Assessment Report (OEPA, 2012)
- NWS Project Extension Compliance Assessment Plan (CAP) (Woodside 2025; submitted to the Department of Water and Environmental Regulation (DWER) 12 September 2025 and accepted by DWER on 25 November 2025 (DWER 2025)).

Regarding reporting periods, via the Compliance Assessment Plan (CAP) Woodside requested that the submission dates and reporting periods are revised to be aligned with existing business reporting and assurance processes. As set out in the CAP, this first CAR is proposed to be for period 12 December 2024 to 31 December 2025. CARs thereafter are proposed to be aligned with the calendar year only.

Table 1: Requirements per Condition 8-7 of MS1233 addressed in this CAR

Condition 8-7 Requirements	Demonstration of Compliance
Each CAR must:	
1. Be endorsed by the proponent’s Chief Executive Officer or a person delegated to sign on the Chief Executive Officer’s behalf;	Appendix A of this CAR outlines who is delegated to sign this CAR. The signed endorsement as required by MS1233 Condition 8-7(1) is provided in Appendix B.
2. Include a statement as to whether the proponent has complied with the conditions;	Appendix B of this CAR outlines compliance status against each condition of MS1233.
3. Identify all potential non-compliances and describe corrective and preventative actions taken;	Section 4 of this CAR summarises any potential non-compliances and associated corrective/preventive actions if relevant.
4. Be made publicly available in accordance with the approved Compliance Assessment Plan (CAP); and	Following submission, the CAR will be made publicly available on Woodside’s website.
5. Indicate any proposed changes to the CAP	There are no changes proposed to be made to the current CAP.

1.2 Background and Project Overview

The Woodside operated NWS Project is one of the world’s largest liquefied natural gas (LNG) producers, supplying oil and gas to Australian and international markets from offshore gas, oil and condensate fields in the Carnarvon Basin off the north-west coast of Australia.

The NWS Project Extension Proposal was referred to the Western Australian Environmental Protection Authority (EPA) on 21 November 2018 and proposed to continue and extend the operating life of the NWS Project through the long-term processing of third-party gas and fluids and NWS Joint Venture field resources through the NWS Project Facilities. The proposal was granted approval with conditions by the Western Australian Minister for the Environment on 12 December 2024 through publishing MS1233.

The NWS Project commenced operations in 1984 with the commissioning of the Karratha Gas Plant (KGP) which produces natural gas, LNG, liquefied petroleum gas (LPG), and condensate to domestic and international markets. As permissioned under MS1233, the NWS Project Extension has the ability to process up to 169 Mtpa of LNG at the KGP and includes the following key processing, storage and offloading facilities (see Figure 1):

- Four LNG processing trains (LNG Train 2 permanently ceased operating 2024);
- Two domestic gas trains;
- Six condensate stabilisation units (two stabilisation units have permanently ceased operating);
- Three LPG fractionation units;
- LPG, LNG and condensate storage facilities;
- Two jetties for export of condensate, LPG and LNG;
- Power generation and supporting utilities;
- Emergency, operational and storage and loading flares;
- Two subsea pipelines, described as 1TL and 2TL, within State waters and crossing onshore to KGP;
- An offsite supply base, described as the King Bay Supply Facility (KBSF), used for activities such as diesel storage, refuelling, pilotage and logistics; and
- Associated infrastructure necessary and incidental to conducting existing NWS Project activities.

After over 40 years of operations, the NWS Project is entering a period of production decline. With increased ullage due to natural field decline and limited third-party gas-processing demand, permanent retirement of LNG train 2 was undertaken from late 2024 and completed in 2025.

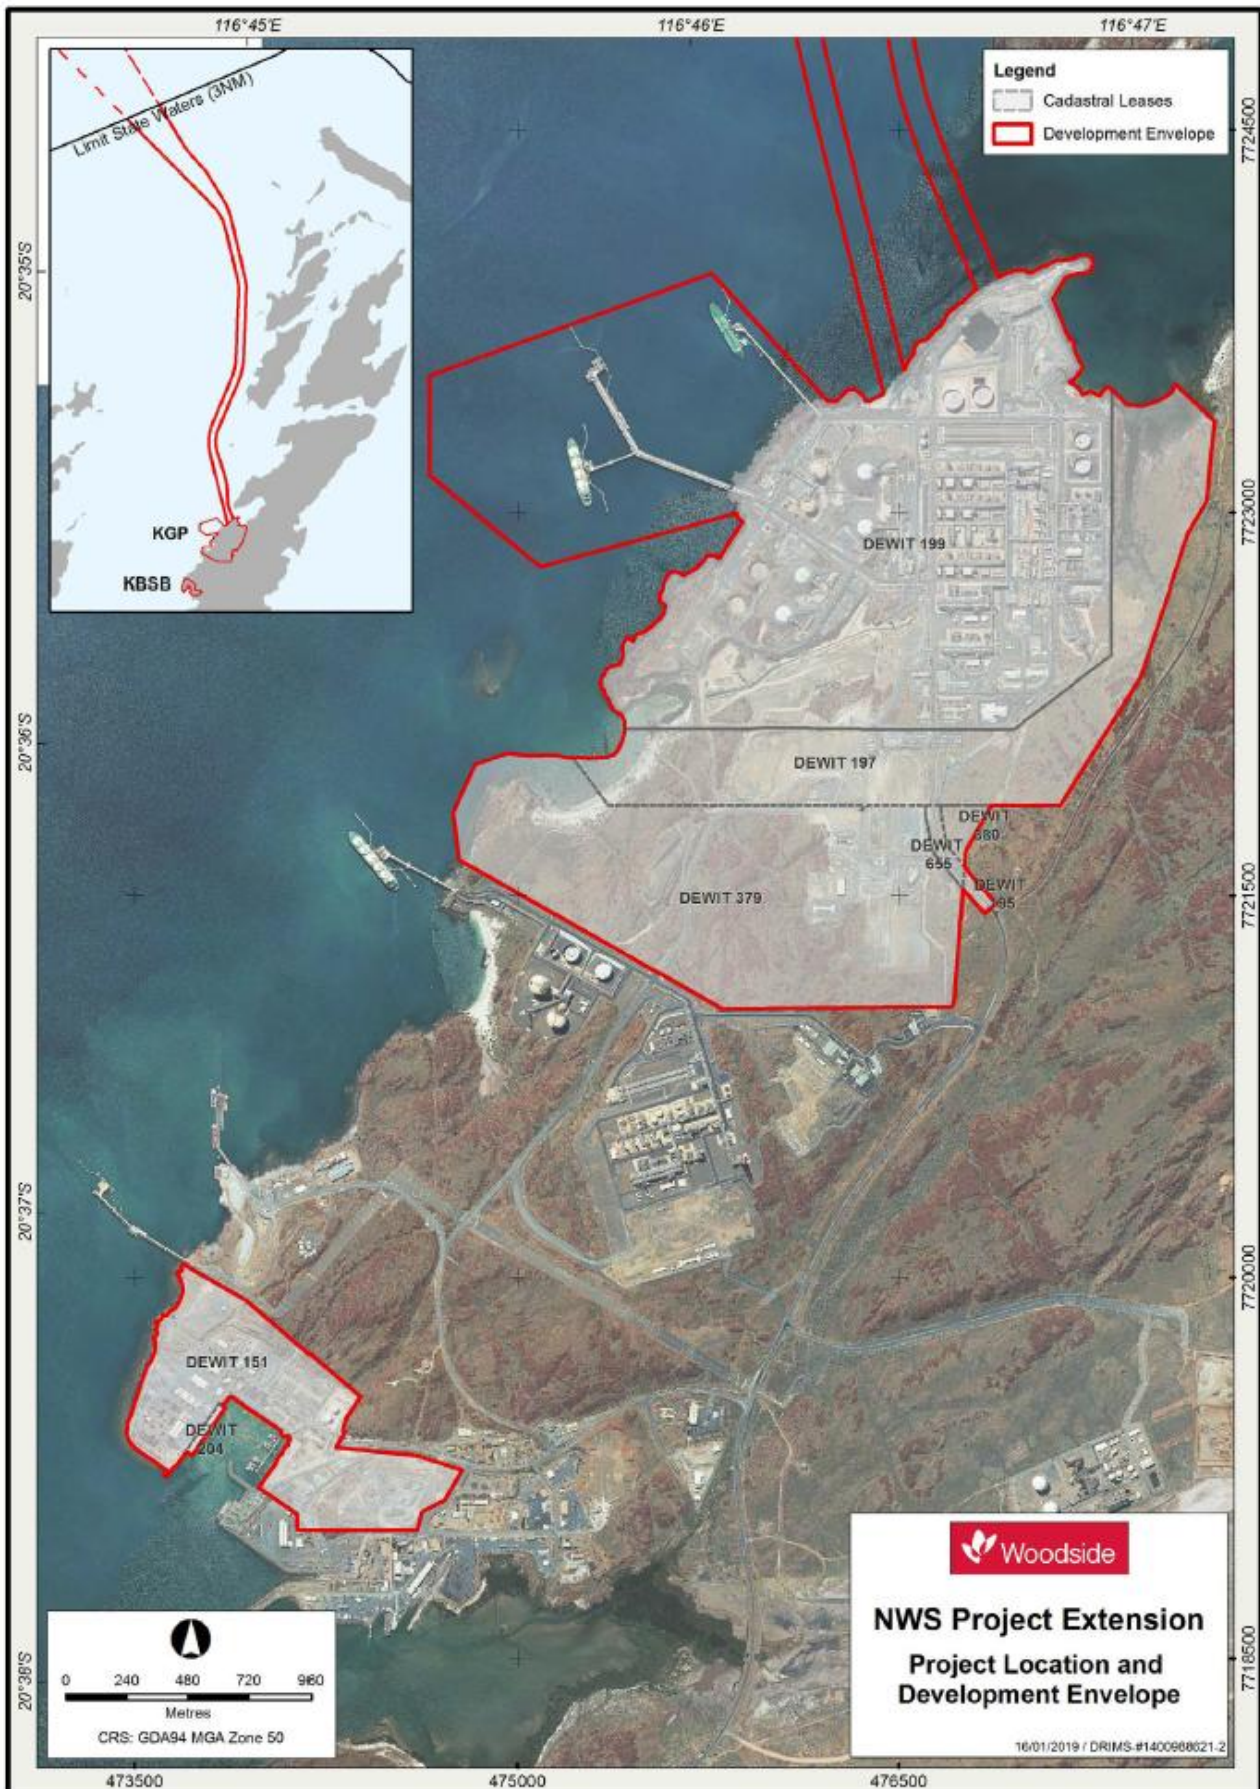

Figure 1: Development Envelope for NWS Project Extension Proposal

2. NWS PROJECT EXTENSION STATUS

The NWS Project Extension Proposal is to continue and extend the operating life of the NWS Project. Based on this, the operations phase of the proposal was ongoing at the time MS1233 was issued and continued for the duration of the reporting period.

Noting the Description provided in Section 1.2, notable activities during the reporting period include:

- Processing of gas from other resource owners (ORO) reserves was undertaken in the reporting period, with KGP processing gas from the Pluto fields via the Pluto-KGP interconnector pipeline and from the onshore Waitsia Gas Project.
- Permanent retirement of LNG Train 2 was undertaken from late 2024 and completed in 2025. Therefore, during this reporting period LNG was processed via the 4 remaining LNG Trains (LNG 1, 3, 4 and 5).

In September 2025, the Federal Minister for the Environment and Water provided approval of the NWS Project Extension via Approval Decision EPBC 2018/8335.

3. COMPLIANCE WITH MINISTERIAL STATEMENT 1233

During the reporting period, Woodside deemed all relevant conditions of MS1233 were compliant.

Compliance has been assessed as outlined in Section 2 of the approved CAP. Detailed assessment of compliance against individual MS1233 conditions is provided in the Audit Table in Appendix A. The compliance status and NWS Project Extension phase for conditions are adopted from the terminology in the former OEPA (now the DWER) Post Assessment Guideline for Preparing an Audit Table document as shown in Table 2.

The Statement of Compliance and Endorsement for the reporting period is provided in Appendix B.

A summary of the annual compliance review completed for the Management Plans is provided in Table 3.

Table 2: Compliance Status Terminology

NWS Extension Project Phase		Description
Pre-construction	No ground disturbance has commenced. Plans may be in development or approvals are being sought prior to ground disturbance.	
Construction	Ground disturbance may have commenced, no waste emission from operations has commenced, limited waste emissions may have occurred during 'commissioning' under a works approval issued under the <i>Environmental Protection Act 1986</i> (EP Act); proposal has substantially commenced.	
Operation	The following may have occurred or may be occurring: ground disturbance; operations are producing waste emissions; commissioning under a license issued under the EP Act; development of a site; remediation activity prior to development of site; mining activity; subdivision of site.	
Decommissioning	The following may occur during this phase: ground disturbance for rehabilitation purposes; post-remediation; post-reclamation; development following remediation where the main objective of the proposal was remediation; decommissioning.	
Overall	This phase is used where an audit element applies during multiple phases of the project.	
Compliance Status Terms	Acronym	Definition
Compliant	C	Implementation of the proposal has been carried out in accordance with the requirements of the audit element.
Completed	CLD	A requirement with a finite period of application has been satisfactorily completed.
Not required at this stage	NR	The requirements of the audit element were not triggered during the reporting period.
Potentially non-compliant	PNC	Possible or likely failure to meet the requirements of the audit element.
Non-compliant	NC	Implementation of the proposal has not been carried out in accordance with the requirements of the audit element.
In process	IP	Where an audit element requires a management or monitoring plan be submitted to the OEPA or another government agency for approval, that submission has been made and no further information or changes have been requested by the OEPA or the other government agency and assessment by the OEPA or other government agency for approval is still pending

Table 3: Summary of annual compliance review for MS1233 Management Plans

Management Plan	Relevant MS1233 Conditions (refer to Audit Table – Appendix A)	Annual Compliance Review Considerations	Compliance Summary
Air Quality Management Plan Revision 2, February 2021	1233:M3.1 1233:M3.2 1233:M3.4	Compliance assessment of management plan commitments (including management actions)	<p>A review of compliance with management plan commitments was undertaken as part of the CAR process and determined the plan was being implemented. A summary of the implementation of the Management Actions is outlined below:</p> <p>MA1: Implement a facility emissions testing and verification program</p> <ul style="list-style-type: none"> - Routine emissions testing for key parameters was undertaken at the defined frequency within the reporting period. This data is presented in Appendix C, D, E and F. - Quarterly results reviewed, and any exceedances reported to DWER as per the operating licence requirement. There were no recorded exceedances of emissions Licence limits in the reporting period. <p>MA2: Undertake emissions performance monitoring and reporting</p> <ul style="list-style-type: none"> - Air emissions were monitored and reported in accordance with National Pollutant Inventory requirements. This data is publicly available. - As part of annual NPI reporting processes, data is reviewed in order to inform management practices and minimise potential environmental impacts of emissions. Results from the most recent reporting period indicate progressive reduction in key emissions (refer Condition 3-5 (1)(e) and (f)). <p>MA3: Monitor ambient air concentrations of relevant emissions, that contribute to human health risks</p> <ul style="list-style-type: none"> - Ambient Air Quality Monitoring was undertaken for the duration of the reporting period. This includes monitoring stations located on Burrup Road (near Woodside’s Pluto Gas Plant and KGP) and in Dampier and Karratha. Monitoring is undertaken for BTEX, NOx, ozone and meteorological data. - No substances were recorded as exceeding the National Environment Protection Measure (NEPM) standards during the 2025 reporting

Management Plan	Relevant MS1233 Conditions (refer to Audit Table – Appendix A)	Annual Compliance Review Considerations	Compliance Summary
			<p>period, and there were no recorded exceedances of the NSW EPA trigger levels used for screening of short term hourly BTEX measurements.</p> <ul style="list-style-type: none"> - Monitoring results for the reporting period will be made publicly available in accordance with Condition 9. <p>MA4: Adopt practicable and efficient technologies to reduce air emissions</p> <ul style="list-style-type: none"> - Targets originally established in the current AQMP are now included in MS1233 Conditions 3-5(1) (e) and (f). Status against these end 2030 reduction requirements are outlined in Appendix A. - Consideration of best practice design and operational measures and efficient technologies to minimise all air emissions will be included in the revised updated AQMP as per Condition 3-5(6). <p>MA5: Implement an adaptive management plan addressing the potential impact to rock art from industrial emissions</p> <ul style="list-style-type: none"> - The adaptive management framework is outlined in Section 5 of the AQMP, and outlines considerations of factors which would be used to inform current management actions within the AQMP and potential for updates. As the AQMP is currently under revision and due for resubmission end June these elements will be considered and incorporated into the update as relevant. <p>MA6: Support the implementation of, and participate in, the DWER Murujuga Rock Art Strategy</p> <ul style="list-style-type: none"> - Woodside and the NWS Joint Venture continue to support the State’s Murujuga Rock Art Strategy with funding, input via the Stakeholder Reference Group and with the supply of monitoring data and other in-kind support. In 2024, Woodside supported the installation of a Murujuga Rock Art Monitoring Program (MRAMP) powered monitoring station on the northern Burrup on Woodside lease area with continued support and access to this site throughout 2025.

Management Plan	Relevant MS1233 Conditions (refer to Audit Table – Appendix A)	Annual Compliance Review Considerations	Compliance Summary
		Performance review of monitoring data against the Air Quality Outcome	Monitoring data for the reporting period has been reviewed and used to determine compliance with the Air Quality Outcome. Refer to Appendix A, condition M3.2 for further information.
		Effectiveness of the plan in meeting objectives and/or outcomes, based on the monitoring completed.	Assessment of effectiveness of the plan in meeting objectives and/or outcomes is demonstrated in Appendix A. Identified improvements and administrative updates will be incorporated into Revision 3 of the AQMP, due for regulatory submission on 30 June 2026.
Cultural Heritage Management Plan Revision 3, February 2021	1233:M4.1.1 1233:M4.2 1233:M4.3 1233:M4.4	Compliance assessment of management plan commitments (including management actions)	Annual Compliance Review for the reporting period confirmed management plan commitments were implemented.
		Effectiveness of the plan in meeting objectives and/or outcomes, based on the monitoring completed.	Assessment of effectiveness of the plan in meeting objectives and/or outcomes is demonstrated in Appendix A. Identified improvements and administrative updates will be incorporated into Revision 4 of the CHMP, due for regulatory submission on 30 June 2026.
Marine Environmental Quality Management Plan Revision 4, November 2021	1233:M5.1 1233:M5.2 1233:M5.3	Compliance assessment of management plan commitments (including management actions)	<p>A review of compliance with management plan commitments was undertaken as part of the CAR process and determined the plan was being implemented. A summary of the implementation of the management provisions (MEQMP Section 6) and monitoring (MEQMP Section 7) is outlined below:</p> <p>Monitoring discharges from the Jetty Outfall</p> <ul style="list-style-type: none"> - Routine wastewater testing was undertaken for the parameters, and at the frequency, defined in the MEQMP. This data is presented in Appendix H. - Review of monitoring data and assessment of annual Environmental Quality Guidelines (EQGs) was completed. There were no recorded EQG exceedances in the reporting period and therefore no further management response or reporting required. <p>Monitoring discharges from the Administration Drain</p> <ul style="list-style-type: none"> - Routine wastewater testing was undertaken for the parameters, and at the frequency, defined in the MEQMP. This data is presented in Appendix I.

Management Plan	Relevant MS1233 Conditions (refer to Audit Table – Appendix A)	Annual Compliance Review Considerations	Compliance Summary
			<ul style="list-style-type: none"> - Review of monitoring data and assessment of annual EQGs was completed. There were three EQG exceedances in the reporting period, prompting a management response to report the exceedance to DWER (reporting completed via this CAR) and commence assessment against the Environmental Quality Standard (EQS). Further detail relating to EQG exceedances and EQS assessment is provided below in the “Performance review of monitoring data against the Marine Objective”. <p>Sediment Sampling at the boundary of the Jetty Outfall moderate ecological protection area (MEPA) and Administration Drain MEPA</p> <ul style="list-style-type: none"> - Sediment sampling is required to be undertaken every 5 years and therefore not required to be implemented under the MEQMP in the current reporting period. Woodside does however complete annual chemical and biological monitoring of the intertidal and subtidal environment as part of the Chemical and Ecological Monitoring of Mermaid Sound (ChEMMS) program. This includes monitoring of some MEQMP contaminants (i.e. metals, hydrocarbons) in sediments within both the jetty outfall MEPA and administration drain MEPA.
		Performance review of monitoring data against the Marine Objective	<p>The Marine Objective was achieved based on overall protection of the environmental values. The majority of monitored wastewater parameters met EQC requirements, with the exception of those outlined below.</p> <p>There were three EQG exceedances recorded for the reporting period from routine wastewater sampling within the Administration Drain:</p> <ul style="list-style-type: none"> - Ammonia exceeded the EQG trigger of 7mg/L, with an annual 95th percentile concentration of 42mg/L. - Dissolved zinc exceeded the EQG trigger of 100µg/L, with an annual 95th percentile concentration of 180µg/L. - Thermotolerant coliforms exceeded the EQG trigger of 196* CFU/100mL, with an annual median concentration of 340 CFU/100mL.

Management Plan	Relevant MS1233 Conditions (refer to Audit Table – Appendix A)	Annual Compliance Review Considerations	Compliance Summary
			<p>Per the MEQMP, assessment against the EQS for each parameter indicates:</p> <ul style="list-style-type: none"> - Thermotolerant coliforms did not exceed the EQS of 980* CFU/100mL (annual median concentration was 340 CFU/100mL). - EQS assessment for dissolved zinc and ammonia was undertaken by whole effluent toxicity (WET) testing. Preliminary WET test results indicate that dilutions required (1:150) to achieve 99% species protection are greater than those dilutions (1:14) applied to derive current EQGs for ammonia and zinc for Administration Drain discharges, and therefore EQS exceedance is likely. This has been reported to DWER in accordance with the MEQMP notification requirements (MEQMP Table 6-1). - Investigations into the source of elevated ammonia and dissolved zinc, mitigative actions implemented, and subsequent Administration Drain monitoring results showing concentrations declining to below EQGs (at the time of reporting), provide confidence the Marine Objective (as defined in MS1233) is likely to be maintained. This is further supported by sediment sampling within the Administration Drain MEPA (completed as part of Woodside’s annual ChEMMS program) which indicates zinc concentrations are below the ANZG 2018 Default Guideline Value (DGV). As further investigation and confirmation of meeting the Marine Objective, Woodside plans to conduct additional targeted sampling of in situ water and sediments around the edge of the Administration Drain MEPA during the Q4 2026 ChEMMS field program to provide further lines of evidence that the Marine Objective has been achieved. <p><i>* Note that the Thermotolerant coliforms EQG of 2,100 CFU/100mL and EQS of 10,500 CFU/100mL as written on page 47 of the MEQMP Rev 4 have incorrectly used 150 dilutions from modelling, rather than the conservative 14 dilutions from field verification, as stated on page 27 of the MEQMP Rev 4.</i></p>
		Effectiveness of the plan in meeting objectives and/or	Assessment of effectiveness of the plan in meeting objectives and/or outcomes is demonstrated in Appendix A. Identified improvements and administrative

Management Plan	Relevant MS1233 Conditions (refer to Audit Table – Appendix A)	Annual Compliance Review Considerations	Compliance Summary
		outcomes, based on the monitoring completed.	updates will be incorporated into Revision 5 of the MEQMP, due for regulatory submission on 30 June 2026.

4. NON-COMPLIANCES AND CORRECTIVE/PREVENTATIVE ACTIONS

During the reporting period, there were no recorded non-compliances with MS1233 and associated management plans.

5. CHANGES TO THE COMPLIANCE ASSESSMENT PLAN (IF APPLICABLE)

No changes are proposed to the approved CAP as part of this CAR.

6. ENDORSEMENT OF CAR

Section 2.4 of the CAP provides Woodside's delegation of positions authorised to endorse CARs for MS1233. The authorised person endorsing this CAR is the Acting Asset Manager NWS Onshore. The signed endorsement as required by MS1233 Condition 8-7(1) is provided in Appendix B.

7. PUBLIC AVAILABILITY OF THE REPORT

In accordance with the CAP and condition 8.7.4 of MS1233, this report will be made publicly available on the Woodside website.

APPENDIX A: AUDIT TABLE

Audit Code	Subject	Requirement (from Ministerial Statement 1233)	How	Evidence	Phase	Timeframe	Status	Further information
Limitations and Extent of Implementation of Proposal								
1233:M1.1	Implementation	Subject to the conditions in MS1233, the proponent must ensure that the proposal is implemented in such a manner that the limitation or maximum extents / capacities ranges included in MS1233 1-1 are not exceeded.	The Proposal will not exceed the extents outlined in Condition 1 of the Ministerial Statement.	Confirmation that the maximum extent or ranges have not been exceeded confirmed through annual compliance review	Overall	For the life of the proposal unless otherwise conditioned	C	<p>For all physical elements, there was no disturbance beyond the area of maximum extent or range defined in Condition 1-1.</p> <p>Operational Elements Reserve sources were from NWSJV field resources and from third-party gas and fluids supplied via the Pluto NWS Interconnector and the Burrup Extension Pipeline (BEP).</p> <p>LNG Production was 12.3 Mtpa for the reporting period and below MS1233 maximum extent of 18.5mtpa.</p> <p>CO₂-e emissions were 4.7 Mtpa for the reporting period and below MS1233 maximum extent of 7.7mtpa.</p> <p>NO_x emissions were 3947tpa for the reporting period and below MS1233 maximum extent of 8900tpa.</p>
Greenhouse Gas Emissions								
1233:M2.1	Greenhouse Gas Emissions	The proponent must notify the CEO in writing within one month of it becoming aware that implementation of the proposal will not be or is not expected to be regulated under the Safeguard Legislation as a designated large facility (the notifiable event) and such notice must briefly describe the reasons for and expected duration of the notifiable event.	Written correspondence notifying that implementation of the proposal will not be or is not expected to be regulated under the Safeguard Legislation as a designated large facility, as per condition 2.1	Submission of written correspondence to the CEO	Operations	Within one month of becoming aware as per condition 2.1	NR	The project was regulated under the safeguard legislation for the duration of the reporting period as a designated large facility and hence no notification was required.
1233:M2.2	Greenhouse Gas Emissions	The proponent must, if requested in writing by the CEO, provide the CEO with a report on the implications for the proposal of any amendment or proposed amendment to the Safeguard Legislation, or a decision or proposed decision made under the Safeguard Legislation that is specified in the CEO's request.	If requested, a report as required by Condition 2.2	Submission of written report provided to the CEO	Operations	For the life of operations phase	NR	No written request from CEO - condition not required at this stage
1233:M2.3.1	Greenhouse Gas Emissions	The report required by condition 2-2 must: 1. be submitted to the CEO within three months of the date of the CEO's request or such longer period as the CEO agrees to in writing; and	Submission of the report requested in Condition 2.2 within timeframe as per condition 2.3.1	Submission of written report provided to the CEO	Operations	Within three months of the date of the CEO's request or such longer period as the CEO agrees to in writing	NR	No written request from CEO - condition not required at this stage
1233:M2.3.2	Greenhouse Gas Emissions	The report required by condition 2-2 must: 2. explain the implications that the specified amendment or decision has had or is expected to have on: (i) the obligation to reduce net Scope 1 greenhouse gas emissions from implementation of the proposal under the Safeguard Legislation; and (ii) the quantity of actual and net Scope 1 greenhouse gas emissions likely to result from the future implementation of the proposal.	The report required by Condition 2.2 will explain the implications as per condition 2.3.2	Submission of written report provided to the CEO	Operations		NR	No written request from CEO - condition not required at this stage

Audit Code	Subject	Requirement (from Ministerial Statement 1233)	How	Evidence	Phase	Timeframe	Status	Further information
1233:M2.4	Greenhouse Gas Emissions	Within 12 months from the date of this Statement and thereafter at five-yearly intervals the proponent shall carry out a review of best practice design and operational measures that could be implemented to reduce Proposal GHG Emissions.	A report reviewing best practice design and operational measures that could be implemented to reduce Proposal GHG Emissions.	Submission of written report provided to the CEO	Operations	Within 12 months from 12 December 2024 and thereafter at five-yearly intervals	C	The report North West Shelf Project Extension - GHG Emissions Reduction Best Practice Review (Rev 0) was submitted to the CEO on 10 December 2025
1233:M2.5.1	Greenhouse Gas Emissions	The proponent shall submit a report to the CEO of the review required by condition 2-4. The report shall: 1. Identify the practicable and reasonable options to reduce Proposal GHG Emissions from the Proposal, including Reservoir Emissions and Non-Reservoir Emissions;	The report required by condition 2.4 will fulfill requirements as per condition 2.5.1	Submission of written report provided to the CEO	Operations	Within 12 months from 12 December 2024 and thereafter at five-yearly intervals	C	The report North West Shelf Project Extension - GHG Emissions Reduction Best Practice Review (Rev 0) was submitted to the CEO on the 10 of December 2025. The report fulfills all requirements of Condition 2.5.
1233:M2.5.2	Greenhouse Gas Emissions	The proponent shall submit a report to the CEO of the review required by condition 2-4. The report shall: 2. Explain the assessment of both the technical and economic feasibility of those options;	The report required by condition 2.4 will fulfill requirements as per condition 2.5.2	Submission of written report provided to the CEO			C	
1233:M2.5.3	Greenhouse Gas Emissions	The proponent shall submit a report to the CEO of the review required by condition 2-4. The report shall: 3. Identify which, if any, of the options were considered to be technically and/or economically feasible;	The report required by condition 2.4 will fulfill requirements as per condition 2.5.3	Submission of written report provided to the CEO			C	
1233:M2.5.4	Greenhouse Gas Emissions	The proponent shall submit a report to the CEO of the review required by condition 2-4. The report shall: 4. Include a peer review report prepared by an independent person or independent persons with suitable technical expertise of matters at (1)-(3); and	The report required by condition 2.4 will fulfill requirements as per condition 2.5.4	Submission of written report provided to the CEO			C	
1233:M2.5.5	Greenhouse Gas Emissions	The proponent shall submit a report to the CEO of the review required by condition 2-4. The report shall: 5. Consider reasonably practicable options for reductions in scope 3 emissions.	The report required by condition 2.4 will fulfill requirements as per condition 2.5.5	Submission of written report provided to the CEO			C	
Air Quality								
1233:M3.1	Air Quality	For the purposes of this condition, the Air Quality Outcome is: 1. to ensure that no air emissions from the proposal have an adverse impact accelerating the weathering of rock art within Murujuga beyond natural rates.	Implementation of the Air Quality Management Plan	Performance against the air quality outcome will be assessed in the Annual compliance review	Operations	For the life of operations phase	NR	Refer to M3.2

Audit Code	Subject	Requirement (from Ministerial Statement 1233)	How	Evidence	Phase	Timeframe	Status	Further information
1233:M3.2	Air Quality	The proponent must ensure implementation of the proposal achieves the Air Quality Outcome.	Implementation of the Air Quality Management Plan	Annual compliance review	Operations	For the life of operations phase	C	<p>Implementation of the proposal achieved the Air Quality Outcome in the reporting period, based on the following key considerations and measures:</p> <ul style="list-style-type: none"> - The release of the Murujuga Rock Art Monitoring Program (MRAMP) second year report and the associated Interim Environmental Quality Criteria (EQC) within the reporting period are important milestones in the ongoing research program and Environmental Quality Management Framework (EQMF) designed to establish baseline regional data and determine potential impacts on culturally significant Murujuga rock art. The MRAMP Year 2 Report findings and associated Interim EQC (Curtin University, 2025) support the Air Outcome being achieved at a regional level and therefore by extension also being achieved at proposal level. In particular, the Year 2 Summary Report (DWER, 2025) notes: <i>'The research indicates that the current levels of the pollutants of most concern for the rock art are lower than the interim guideline levels' and 'Emissions measured to date are below the interim EQC, so there is currently a low risk of impact to the rock art. Now that we have interim EQC, the research team is monitoring against the EQC and exceedances will be reported to DWER and MAC'.</i> - Implementation of the North West Shelf Project Extension Air Quality Management Plan (Revision 2, G2000RF1401194398, February 2021). - Compliance demonstrated against key Air Quality conditions through the Annual Compliance Review, particularly Condition 3-5 (1)(e) and (f) demonstrating reductions in NOx and VOCs in respect of the end 2030 limit.
1233:M3.3	Air Quality	<p>If:</p> <ol style="list-style-type: none"> 1. the Minister notifies the proponent in writing, for the purposes of this condition, of one or more air quality standards to be met (including standards derived from the results of the Murujuga Rock Art Monitoring Program); and 2. the proponent complies with all those standards, and any amendments to the standards which are the subject of a notification to the proponent by the Minister in writing for the purposes of this condition, <p>the proponent is taken to have achieved the Air Quality Outcome.</p>	If required, the Air Quality Management Plan will be updated as per Minister notification outlined in Condition 3.3	If required, Annual Compliance Review against updated Air Quality Management Plan	Operations	For the life of operations phase	NR	No notification in writing was received from the Minister regarding air quality standards to be met.
1233:M3.4	Air Quality	Subject to, and to the extent that it is not inconsistent with, condition 3-2, the proponent must implement the North West Shelf Project Extension Air Quality Management Plan (Revision 2, G2000RF1401194398, February 2021) until the CEO had confirmed in writing that a revision of the plan submitted under condition 3-5 meets the requirements of conditions 3-5(1) to 3-5(12).	Implementation of the confirmed revision of approved Air Quality Management Plan as per condition 3.4	Annual compliance review against the approved revision of the Air Quality Management Plan	Operations	For the life of the operations phase until the CEO had confirmed in writing as per condition 3.4	C	Implementation of the North West Shelf Project Extension Air Quality Management Plan (Revision 2, G2000RF1401194398, February 2021) officially commenced upon issue of Ministerial Statement 1233. Compliance demonstrated through the Annual Compliance Review.

Audit Code	Subject	Requirement (from Ministerial Statement 1233)	How	Evidence	Phase	Timeframe	Status	Further information
1233:M3.5.1	Air Quality	<p>Within 12 months of the issue date of this Statement, or such greater time approved in writing by the CEO, the proponent must revise in consultation with the Murujuga Key Stakeholders, and submit to the CEO and the DCCEEW, a revision of the North West Shelf Project Extension Air Quality Management Plan (Revision 2, G2000RF1401194398, February 2021) that:</p> <p>1. sets out measures that will be taken to achieve each of the following outcomes and objectives:</p> <p>(a) subject to condition 3-3, compliance with the Air Quality Outcome;</p> <p>(b) compliance with all air quality objectives and standards (including, if applicable, those derived from the results of the Murujuga Rock Art Monitoring Program), and any amendments to those objectives and standards, which are the subject of a notification to the proponent by the Minister in writing for the purposes of condition 3-3 and/or condition 3-8(3);</p> <p>(c) contribute to the maintenance of regional air quality in accordance with relevant Air Quality Standards by the minimisation of emissions of NOx, SOx and VOCs [including BTEX] from the proposal;</p> <p>(d) the minimisation of air emissions (including, but not limited to NOx, SOx and VOCs [including BTEX]) from the proposal by the adoption of best practice measures;</p> <p>(e) at a minimum, reduce NOx emissions from the proposal to 3,065 tpa by 31 December 2030; and</p> <p>(f) at a minimum, reduce VOC emissions from the proposal to 10,557 tpa by 31 December 2030.</p>	Revision 3 of the Air Quality Management Plan prepared in consultation with the Murujuga Key Stakeholders as per condition 3.5.1	<p>Submission of Revision 3 of the Air Quality Management Plan to the CEO and the DCCEEW as per condition 3.5.1, including record of consultation with Murujuga Key Stakeholders.</p> <p>The Compliance assessment Review will quantify annual NOx and VOC emissions and performance against the reductions defined in condition (d) and (e).</p>	Operations	Submission within 12 months from 12 December 2024, or such greater time approved in writing by the CEO	NR	<p>The revised AQMP is required to be submitted by 30 June 2026. This revised timing was approved by the CEO via letter to Woodside dated 14 November 2025.</p> <p>At the time of preparing this CAR, Woodside had commenced revision of the AQMP to meet the relevant condition requirements. This included consultation requests to the Murujuga Key Stakeholders.</p> <p>NOx emissions for the most recent 2024/2025 Financial Year (as per NPI reporting) were 4,383t NOx¹, which represents a progressive reduction toward the NOx emissions levels to be achieved by end 2030 (minimum 3,065tpa). Total VOC emissions for the same period were 7,749t, and therefore below the emissions levels to be achieved by end 2030 (10,557tpa).</p> <p><i>Note 1: the reported NOx emissions for the purpose of this Condition are based on NPI reporting and represent Financial Year data. This is due to the reduction requirement defined by Condition 3-5(1)(e) being calculated based on a 5 yearly average of reported emissions under NPI for the period 2013/14 to 2017/18. This differs from the NOx emissions reported under Condition 1.1, which have been calculated using NPI methodology for the reporting period of the CAR (12 December 2024 to 31 December 2025).</i></p>
1233:M3.5.2	Air Quality	<p>Within 12 months of the issue date of this Statement, or such greater time approved in writing by the CEO, the proponent must revise in consultation with the Murujuga Key Stakeholders, and submit to the CEO and the DCCEEW, a revision of the North West Shelf Project Extension Air Quality Management Plan (Revision 2, G2000RF1401194398, February 2021) that:</p> <p>2. is informed by monitoring data which establishes a scientifically valid and robust baseline (the methodology for which has been subject to a peer review by an independent person or independent persons with suitable technical expertise on the suitability of the methodology used to gather the baseline data) that is sufficient to measure whether the Air Quality Outcome and the environmental outcomes and objectives specified in condition 3-5(1) have been achieved;</p>	Revision 3 of the Air Quality Management Plan prepared in consultation with the Murujuga Key Stakeholders as per condition 3.5.2	Submission of Revision 3 of the Air Quality Management Plan to the CEO and the DCCEEW as per condition 3.5.2, including record of consultation with Murujuga Key Stakeholders.	Operations	Submission within 12 months from 12 December 2024, or such greater time approved in writing by the CEO	NR	Refer to Condition 3.5.1
1233:M3.5.3	Air Quality	<p>Within 12 months of the issue date of this Statement, or such greater time approved in writing by the CEO, the proponent must revise in consultation with the Murujuga Key Stakeholders, and submit to the CEO and the DCCEEW, a revision of the North West Shelf Project Extension Air Quality Management Plan (Revision 2, G2000RF1401194398, February 2021) that:</p> <p>3. describes and quantifies all of the expected air emissions from the proposal, in accordance with reporting methodologies outlined in the latest National Pollutant Inventory guideline and their sources;</p>	Revision 3 of the Air Quality Management Plan prepared in consultation with the Murujuga Key Stakeholders as per condition 3.5.3	Submission of Revision 3 of the Air Quality Management Plan to the CEO and the DCCEEW as per condition 3.5.3, including record of consultation with Murujuga Key Stakeholders.	Operations	Submission within 12 months from 12 December 2024, or such greater time approved in writing by the CEO	NR	Refer to Condition 3.5.1

1233:M3.7.2	Air Quality	If the proponent's monitoring, tests, surveys or investigations indicate an exceedance of threshold criteria specified in the Confirmed Air Quality Management Plan, the proponent must: 2. implement the contingency actions required by the Confirmed Air Quality Management Plan within seven (7) days of the exceedance(s) being reported or such other time specified in the Confirmed Air Quality Management Plan, and continue implementation of threshold criteria actions until the CEO has confirmed by notice in writing that it has been demonstrated that the relevant threshold criteria is being met and implementation of the contingency actions is no longer required;	Implementation of the contingency actions as required by the approved version of the Confirmed Air Quality Management Plan, as per condition 3.7.2	Annual Compliance Review	Operations	Within seven (7) days of the exceedance(s) being reported or such other time specified in the Confirmed Air Quality Management Plan as per condition 3.7	NR	Confirmed AQMP refers to (once confirmed by CEO) Revision 3, to be submitted by 30 June 2026.
1233:M3.7.3	Air Quality	If the proponent's monitoring, tests, surveys or investigations indicate an exceedance of threshold criteria specified in the Confirmed Air Quality Management Plan, the proponent must: 3. investigate to determine the cause and potential impact of the threshold criteria being exceeded;	Investigation to determine the cause and potential impact of the threshold criteria being exceeded	Annual compliance Review	Operations	For the life of operations phase	NR	Confirmed AQMP refers to (once confirmed by CEO) Revision 3, to be submitted by 30 June 2026.
1233:M3.7.4	Air Quality	If the proponent's monitoring, tests, surveys or investigations indicate an exceedance of threshold criteria specified in the Confirmed Air Quality Management Plan, the proponent must: 4. if threshold criteria have been exceeded, investigate the potential environmental harm or alteration of the environment that occurred due to threshold criteria being exceeded;	Investigation the potential environmental harm or alteration of the environment that occurred due to threshold criteria being exceeded as per condition 3.7.4	Annual Compliance Review	Operations	For the life of operations phase	NR	Confirmed AQMP refers to (once confirmed by CEO) Revision 3, to be submitted by 30 June 2026.
1233:M3.7.5	Air Quality	If the proponent's monitoring, tests, surveys or investigations indicate an exceedance of threshold criteria specified in the Confirmed Air Quality Management Plan, the proponent must: 5. provide a further report to the CEO within twenty-one (21) days (or such greater time approved in writing by the CEO) of the threshold criteria exceedance being reported which must include: (a) details of management and/or contingency actions implemented; (b) the effectiveness of the management and/or contingency actions implemented against the threshold criteria; (c) the findings of the investigations required by conditions 3-7(3) and 3-7(4) (d) measures to prevent the threshold criteria being exceeded in the future; (e) measures to prevent, control or abate impacts which may have occurred; and (f) justification for the threshold criteria remaining, or being adjusted based on better understanding, demonstrating that the Air Quality Outcome and the outcomes and objectives in condition 3-5(1) will be met.	Written correspondence provided to the CEO reporting on requirements as per condition 3.7.5	Written correspondence reporting on requirements as per condition 3.7.5	Operations	Within twenty-one (21) days (or such greater time approved in writing by the CEO) of the threshold criteria exceedance being reported as per condition 3.7.5	NR	Confirmed AQMP refers to (once confirmed by CEO) Revision 3, to be submitted by 30 June 2026.
1233:M3.8.1	Air Quality	Without limiting conditions 3-4 and 3-6 (implementation of the plan), and notwithstanding compliance with condition 3-7 (response to exceedance), the proponent must not cause or allow:	Implement Confirmed Air Quality Management Plan; Written correspondence	Annual Compliance Review	Operations	For the life of operations phase	NR	Confirmed AQMP refers to (once confirmed by CEO) Revision 3, to be submitted by 30 June 2026.

Audit Code	Subject	Requirement (from Ministerial Statement 1233)	How	Evidence	Phase	Timeframe	Status	Further information
		1. an exceedance of a threshold criteria specified in a Confirmed Air Quality Management Plan (regardless of whether threshold contingency actions have been or are being implemented);	provided to the CEO reporting on requirements as per condition 3.7.5					
1233:M3.8.2	Air Quality	Without limiting conditions 3-4 and 3-6 (implementation of the plan), and notwithstanding compliance with condition 3-7 (response to exceedance), the proponent must not cause or allow: 2. any non-compliance with the requirements of a Confirmed Air Quality Management Plan; or	Implement Confirmed Air Quality Management Plan Written correspondence provided to the CEO reporting on requirements as per condition 3.7.5	Annual Compliance Review	Operations	For the life of operations phase	NR	Confirmed AQMP refers to (once confirmed by CEO) Revision 3, to be submitted by 30 June 2026.
1233:M3.8.3	Air Quality	Without limiting conditions 3-4 and 3-6 (implementation of the plan), and notwithstanding compliance with condition 3-7 (response to exceedance), the proponent must not cause or allow: 3. any non-compliance with any air quality objectives and standards (including those derived from the results of the Murujuga Rock Art Monitoring Program), and any amendments to those objectives and standards, which are the subject of a notification in writing to the proponent by the Minister for the purposes of this condition.	Implement Confirmed Air Quality Management Plan Written correspondence provided to the CEO reporting on requirements as per condition 3.7.5	Annual Compliance Review	Operations	For the life of operations phase	NR	No non-compliances with air quality objectives and standards as defined by MS1233 were identified during the reporting period: - Woodside's Ambient Air Quality Monitoring continued for the reporting period, monitoring for BTEX, NOx, ozone and meteorological data. No substances were recorded as exceeding the National Environment Protection Measure (NEPM) standards during the 2025 monitoring period, and there were no recorded exceedances of the NSW EPA trigger levels used for screening of short term hourly BTEX measurements. Regarding Murujuga Rock Art Monitoring Program (MRAMP) Year 2 Report findings and associated Interim Environmental Quality Criteria (EQC) (Curtin University, 2025), the Year 2 Summary Report (DWER, 2025) notes: - 'The research indicates that the current levels of the pollutants of most concern for the rock art are lower than the interim guideline levels' and - 'Emissions measured to date are below the interim EQC, so there is currently a low risk of impact to the rock art. Now that we have interim EQC, the research team is monitoring against the EQC and exceedances will be reported to DWER and MAC'. No written notification from the Minister regarding amendments to air quality objectives or standards.
1233:M3.9.1	Air Quality	The proponent: 1. may submit to the CEO and the DCCEEW a revision of the Confirmed Air Quality Management Plan, prepared in consultation with the Murujuga Key Stakeholders, at any time; and	Revision prepared in consultation with the Murujuga Key Stakeholders of the Air Quality Management Plan as per condition 3.9.1	Submission of the revised Air Quality Management Plan to the CEO and the DCCEEW as per condition 3.9.1, including record of consultation with Murujuga Key Stakeholders.	Operations	For the life of operations phase	NR	No submission of a revision of the Confirmed Air Quality Management Plan during the reporting period.
1233:M3.9.2	Air Quality	The proponent: 2. must submit to the CEO and the DCCEEW a revision of the Confirmed Air Quality Management Plan, prepared in consultation with the Murujuga Key Stakeholders:	Revision prepared in consultation with the Murujuga Key Stakeholders of the Air Quality Management Plan as per condition 3.9.2	Submission of the revised Air Quality Management Plan to the CEO and the DCCEEW as per condition 3.9.2, including record of consultation with Murujuga Key Stakeholders.	Operations		NR	No written notification from the Minister regards amendments to air quality objectives or standards. No written direction from the CEO. Five yearly review not yet required.

Audit Code	Subject	Requirement (from Ministerial Statement 1233)	How	Evidence	Phase	Timeframe	Status	Further information
		(a) within six (6) months (or such greater time approved in writing by the CEO) of being notified by the Minister of air quality standards or objectives (including those derived from the results of the Murujuga Rock Art Monitoring Program) or any amendments to those objectives or standards, for the purposes of condition 3-3 or condition 3-8(3); (b) as and when directed to by the CEO in writing; and (c) at least every five (5) years.				<ul style="list-style-type: none"> Within six (6) months (or such greater time approved in writing by the CEO) of being notified by the Minister of air quality standards or objectives or any amendments to those objectives or standards When directed by the CEO in writing At least every five (5) years 		
1233:M3.10	Air Quality	Any revision of the Confirmed Air Quality Management Plan submitted under condition 3-9 must satisfy the requirements of conditions 3-5.	Revision of the Confirmed Air Quality Management Plan submitted under condition 3.9 will satisfy condition 3.10	Submission of the revised Air Quality Management Plan to the CEO and the DCCEEW as per condition 3.10, including record of consultation with Murujuga Key Stakeholders.	Operations	For the life of operations phase	NR	No submission of a revision of the Confirmed Air Quality Management Plan during the reporting period.
1233:M3.11	Air Quality	If a revision of the Confirmed Air Quality Management Plan under condition 3-9 involves an amendment to an item that was subject to a peer review under conditions 3-5(2), 3-5(7) or 3-5(11), the proponent must submit to the CEO with the revision a report of a further peer review of those item(s), carried out by an independent person or independent persons with suitable technical expertise, unless otherwise advised in writing by the CEO.	If revision of the Confirmed Air Quality Management Plan submitted under condition 3.9 involves an amendment to an item that was subject to a peer review under conditions 3-5(2), 3-5(7) or 3-5(11), the submission will include a report of a further peer review of those item(s) as per condition 3.11	Submission of the revised Air Quality Management Plan to the CEO, including if applicable, a report of a further peer review of those item(s) as per condition 3.11	Operations	For the life of operations phase	NR	No submission of a revision of the Confirmed Air Quality Management Plan during the reporting period.
1233:M3.12	Air Quality	The proponent must interpret and report on monitoring data collected for the purposes of the Confirmed Air Quality Management Plan to the CEO, the DCCEEW and the Murujuga Key Stakeholders at least annually.	Report on monitoring data collected for the purposes of the Confirmed Air Quality Management Plan	Submission of report on monitoring data collected for the purposes of the Confirmed Air Quality Management Plan to CEO, the DCCEEW and the Murujuga Key Stakeholders	Operations	At least annually	NR	Confirmed AQMP refers to (once confirmed by CEO) Revision 3, to be submitted by 30 June 2026.
1233:M3.13	Air Quality	The proponent must make the Confirmed Air Quality Management Plan and all reports and monitoring data required by condition 3 publicly available on the proponent's website within the timeframes specified below for the life of the proposal, or in any other timeframe specified in writing by the CEO: (a) any Confirmed Air Quality Management Plan, within fourteen (14) days of receiving written confirmation of the CEO that it satisfies the requirements of conditions 3-5(1) to 3-5(13); and	Confirmed Air Quality Management Plan and reports and monitoring data required by condition 3 will be publicly available on the Woodside website as per condition 3.13	Documents on Woodside website as per condition 3.13	Operations	<p>The following will be publicly available on the proponent's website within the timeframes specified below</p> <ul style="list-style-type: none"> Any Confirmed Air Quality Management Plan, within fourteen (14) days of receiving written confirmation of the CEO 	NR	Confirmed AQMP refers to (once confirmed by CEO) Revision 3, to be submitted by 30 June 2026.

		<p>3. a failure to comply with the requirements of the Confirmed Marine Environmental Quality Management Plan.</p>	Written correspondence provided to the CEO reporting on requirements as per condition 5.6.1					
1233:M5.8.3	Marine Environmental Quality	<p>Without limiting condition 5-3 and 5-5 (implementation of the plan) and notwithstanding compliance with condition 5-6 (response to exceedance) and condition 5-7 (response to failure to implement management action(s)), the proponent must not cause or allow:</p> <p>3. a failure to comply with the requirements of the Confirmed Marine Environmental Quality Management Plan.</p>	Implement Confirmed Marine Environment Quality Management Plan	Annual Compliance Review	Operations	For the life of operations phase	NR	Confirmed MEQMP refers to (once confirmed by CEO) Revision 5, to be submitted by 30 June 2026.
1233:M5.9.1	Marine Environmental Quality	<p>The proponent:</p> <p>1. may submit to the CEO a revision of the Confirmed Marine Environmental Quality Management Plan, prepared in consultation with the Murujuga Key Stakeholders at any time; and</p>	Revision prepared in consultation with the Murujuga Key Stakeholders of the Confirmed Marine Environmental Quality Management Plan as per condition 5.9.1	Submission of the revised Marine Environmental Quality Management Plan to the CEO as per condition 5.9.1, including record of consultation with Murujuga Key Stakeholders	Operations	For the life of operations phase	NR	No submission of a revision of the Confirmed Marine Environmental Management Plan during reporting period. No written direction from CEO.
1233:M5.9.2	Marine Environmental Quality	The proponent:	Revision prepared in consultation with the Murujuga Key Stakeholders of the	Submission of the revised Marine Environmental Quality Management Plan to the CEO as per condition 5.9.2, including	Operations	For the life of operations phase	NR	

Audit Code	Subject	Requirement (from Ministerial Statement 1233)	How	Evidence	Phase	Timeframe	Status	Further information
		2. must submit to the CEO a revision of the Confirmed Marine Environmental Quality Management Plan, prepared in consultation with the Murujuga Key Stakeholders, as and when directed by the CEO in writing.	Confirmed Marine Environmental Quality Management Plan as per condition 5.9.2	record of consultation with Murujuga Key Stakeholders				
1233:M5.10	Marine Environmental Quality	Any revision of the Confirmed Marine Environmental Quality Management Plan submitted under condition 5-9 must satisfy the requirements of conditions 5-4(1) to 5-4(8).	Revision of the Confirmed Marine Environmental Quality Management Plan submitted under condition 5.9 will satisfy condition 5.10	Submission of the revised Marine Environmental Quality Management Plan to the CEO as per condition 5.10	Operations	For the life of operations phase	NR	No submission of a revision of the Confirmed Marine Environmental Quality Management Plan during the reporting period.
Environmental Performance Report								
1233:M6.1	Environmental Performance Report	The proponent must submit an Environmental Performance Report to the Minister and the Murujuga Key Stakeholders every five years.	Environmental Performance Report prepared and submitted to Minister and the Murujuga Key Stakeholders as per condition 6.1	Submission of the Environmental Performance Report to Minister and the Murujuga Key Stakeholders as per condition 6.1	Operations	Every five years	NR	The first Environmental Performance Report is due 30 April 2030 for the reporting period defined as 12 December 2024 to 31 December 2029.
1233:M6.2	Environmental Performance Report	The first Environmental Performance Report must be submitted within three (3) months of the expiry of the five (5) year period commencing from the date of issue of this Statement, or such other time as may be approved in writing by the CEO.	Environmental Performance Report for the 5 year period outlined in Section 2.3 prepared as per condition 6.2	Submission of the Environmental Performance Report as per condition 6.2	Operations	First reporting period: 12 December 2024 to 31 December 2029 Future reporting periods: 1 January 2030 to 31 December 2035, and five yearly thereafter Report Submission Dates: 30 April of the year following the end of the five yearly period <i>Note: Refer to Section 2.3 of the CAP</i>	NR	The first Environmental Performance Report is due 30 April 2030 for the reporting period defined as 12 December 2024 to 31 December 2029.
1233:M6.3.1	Environmental Performance Report	Each Environmental Performance Report must report on: 1. trends in air emissions from the proposal that have the potential to impact rock art and/or human health; and	Environmental Performance Report prepared to fulfill requirements as per condition 6.3.1	Environmental Performance Report	Operations	For the life of operations phase	NR	The first Environmental Performance Report is due 30 April 2030 for the reporting period defined as 12 December 2024 to 31 December 2029.
1233:M6.3.2	Environmental Performance Report	Each Environmental Performance Report must report on: 2. trends in the quality of discharges from the proposal that have the potential to impact on the marine environment.	Environmental Performance Report prepared to fulfill requirements as per condition 6.3.2	Environmental Performance Report	Operations	For the life of operations phase	NR	The first Environmental Performance Report is due 30 April 2030 for the reporting period defined as 12 December 2024 to 31 December 2029.
1233:M6.4.1	Environmental Performance Report	The Environmental Performance Report must include: 1. a comparison of the trends of the emissions identified in condition 6-3 at the end of the five-year period against the emissions at the beginning of the five (5) year period;	Environmental Performance Report includes requirements as per condition 6.4.1	Environmental Performance Report	Operations	For the life of operations phase	NR	The first Environmental Performance Report is due 30 April 2030 for the reporting period defined as 12 December 2024 to 31 December 2029.
1233:M6.4.2	Environmental Performance Report	The Environmental Performance Report must include: 2. a comparison of the trends of the emissions identified in condition 6-3 at the end of the five (5) year period against the emissions identified in first Environmental Performance Report submitted in accordance with condition 6-2; and	Environmental Performance Report includes requirements as per condition 6.4.2	Environmental Performance Report	Operations	For the life of operations phase	NR	The first Environmental Performance Report is due 30 April 2030 for the reporting period defined as 12 December 2024 to 31 December 2029.
1233:M6.4.3	Environmental Performance Report	The Environmental Performance Report must include: 3. proposed Adaptive management and continuous improvement strategies.	Environmental Performance Report includes requirements as per condition 6.4.3	Environmental Performance Report	Operations	For the life of operations phase	NR	The first Environmental Performance Report is due 30 April 2030 for the reporting period defined as 12 December 2024 to 31 December 2029.

Audit Code	Subject	Requirement (from Ministerial Statement 1233)	How	Evidence	Phase	Timeframe	Status	Further information
1233:M6.5	Environmental Performance Report	The Environmental Performance Report may be in whole or part prepared in conjunction with other proponents and government agencies where there are cumulative impacts from proposals	Environmental Performance Report/s, where applicable, prepared in conjunction with other proponents and government agencies as per condition 6.5	Environmental Performance Report/s or documents as per condition 6.5	Operations	For the life of operations phase	NR	The first Environmental Performance Report is due 30 April 2030 for the reporting period defined as 12 December 2024 to 31 December 2029.
Decommissioning and Rehabilitation								
1233:M7.1	Decommissioning and Rehabilitation	For the purposes of this condition, the Decommissioning and Rehabilitation Objective is: 1. ensure the proposal is decommissioned and rehabilitated in an ecologically sustainable manner	Implementation of Decommissioning and Rehabilitation Plan	Annual Compliance Review after decommissioning phase commences	Decommissioning	On commencement of the decommissioning phase, or at a time agreed in writing with the CEO	NR	Decommissioning for the project has not started and there is no agreed time in writing with the CEO.
1233:M7.2	Decommissioning and Rehabilitation	At least five years prior to the forecasted completion of the operational phase of the proposal, or at a time as and when directed by the CEO in writing, the proponent must, in consultation with the Murujuga Key Stakeholders, prepare and submit a Decommissioning and Rehabilitation Plan to the CEO for approval, on advice of the Department of Biodiversity, Conservation and Attractions and the DPLH, that: 2. sets out measures that will be implemented to ensure that the Decommissioning and Rehabilitation Objective is achieved.	Decommissioning and Rehabilitation Plan prepared in consultation with the Murujuga Key Stakeholders submitted to the CEO for approval, on advice of the Department of Biodiversity, Conservation and Attractions and the DPLH as per condition 7.2		Decommissioning	At least five years prior to the forecasted completion of the operational phase of the proposal, or at a time as and when directed by the CEO in writing	NR	Decommissioning for the project has not started and there is no agreed time in writing with the CEO.
1233:M7.3	Decommissioning and Rehabilitation	The proponent must implement the most recent version of the Confirmed Decommissioning and Rehabilitation Plan until the CEO has confirmed in writing that the proponent has demonstrated that the Decommissioning and Rehabilitation Objective has been met.	Implementation of Decommissioning and Rehabilitation Plan until confirmed in writing as per condition 7.3	Annual Compliance Review until confirmed in writing as per condition 7.3	Decommissioning	On commencement of the decommissioning phase, or at a time agreed in writing with the CEO and until confirmed in writing as per condition 7.3	NR	Decommissioning for the project has not started and there is no agreed time in writing with the CEO.
1233:M7.4	Decommissioning and Rehabilitation	After the submission of the Decommissioning and Rehabilitation Plan, the proponent must include an update on the forecasted completion of the operational phase and decommissioning of the proposal in each subsequent Compliance Assessment Report required by condition 8-6.	After submission of the Decommissioning and Rehabilitation Plan, the Compliance Assessment Report includes requirements as per condition 7.4	Compliance Assessment Report	Decommissioning	After submission of the Decommissioning and Rehabilitation Plan	NR	
1233:M7.5.1	Decommissioning and Rehabilitation	The proponent: 1. may submit to the CEO a revision of the Confirmed Decommissioning and Rehabilitation Plan, prepared in consultation with the Murujuga Key Stakeholders the Department of Biodiversity, Conservation and Attractions and the DPLH at any time; and	Revision of the Confirmed Decommissioning and Rehabilitation Plan, prepared in consultation with the Murujuga Key Stakeholders, the Department of Biodiversity, Conservation and Attractions and the DPLH as per condition 7.5.1	Submission of revised Decommissioning and Rehabilitation Plan as per condition 7.5.1	Decommissioning	After initial submission of the first approved Decommissioning and Rehabilitation Plan and then for the life of the decommissioning phase	NR	Decommissioning for the project has not started and there is no agreed time in writing with the CEO.
1233:M7.5.2	Decommissioning and Rehabilitation	The proponent: 2. must submit to the CEO a revision of the Confirmed Decommissioning and Rehabilitation Plan, prepared in consultation with the Murujuga Key Stakeholders the Department of Biodiversity, Conservation and Attractions and the DPLH as and when directed by the CEO in writing.	Revision of the Confirmed Decommissioning and Rehabilitation Plan, prepared in consultation with the Murujuga Key Stakeholders, the Department of Biodiversity, Conservation and	Submission of revised Decommissioning and Rehabilitation Plan as per condition 7.5.2	Decommissioning	After initial submission of the first approved Decommissioning and Rehabilitation Plan and then for the life of the decommissioning phase	NR	Decommissioning for the project has not started and there is no agreed time in writing with the CEO.

Audit Code	Subject	Requirement (from Ministerial Statement 1233)	How	Evidence	Phase	Timeframe	Status	Further information
			Attractions and the DPLH as per condition 7.5.2					
1233:M7.6	Decommissioning and Rehabilitation	Any revision of the Confirmed Decommissioning and Rehabilitation Plan submitted under condition 7-5 must satisfy the requirement of condition 7-2(1).	Revision of the Confirmed Decommissioning and Rehabilitation Plan submitted under condition 7.5 will satisfy condition 7.6	Submission of revised Decommissioning and Rehabilitation Plan as per condition 7.6	Decommissioning	After initial submission of the first approved Decommissioning and Rehabilitation Plan and then for the life of the decommissioning phase	NR	Decommissioning for the project has not started and there is no agreed time in writing with the CEO.
Compliance Reporting								
1233:M8.1	Compliance Reporting	The proponent must prepare and maintain a Compliance Assessment Plan which is submitted to the CEO at least six (6) months prior to the first Compliance Assessment Report required by condition 8-6.	Compliance Assessment Plan required by condition 8.6 prepared and submitted as per condition 8.1	Submission of the Compliance Assessment Plan to the CEO as per condition 8.1	Overall	At least six (6) months prior to the first Compliance Assessment Report	C	Compliance Assessment Plan submitted on the 12 September 2025 and accepted on the 25 November 2025.
1233:M8.2.1	Compliance Reporting	The Compliance Assessment Plan must indicate: 1. the frequency of compliance reporting;	Compliance Assessment Plan fulfils Condition 8.2.1	Written correspondence confirming approval of Compliance Assessment Plan	Overall	For the life of the proposal	C	Compliance Assessment Plan submitted on the 12 September 2025 and accepted on the 25 November 2025.
1233:M8.2.2	Compliance Reporting	The Compliance Assessment Plan must indicate: 2. the approach and timing of compliance assessments;	Compliance Assessment Plan fulfils Condition 8.2.2	Written correspondence confirming approval of Compliance Assessment Plan	Overall	For the life of the proposal	C	Compliance Assessment Plan submitted on the 12 September 2025 and accepted on the 25 November 2025.
1233:M8.2.3	Compliance Reporting	The Compliance Assessment Plan must indicate: 3. the retention of compliance assessments;	Compliance Assessment Plan fulfils Condition 8.2.3	Written correspondence confirming approval of Compliance Assessment Plan	Overall	For the life of the proposal	C	Compliance Assessment Plan submitted on the 12 September 2025 and accepted on the 25 November 2025.
1233:M8.2.4	Compliance Reporting	The Compliance Assessment Plan must indicate: 4. the method of reporting of potential non-compliances and corrective actions taken;	Compliance Assessment Plan fulfils Condition 8.2.4	Written correspondence confirming approval of Compliance Assessment Plan	Overall	For the life of the proposal	C	Compliance Assessment Plan submitted on the 12 September 2025 and accepted on the 25 November 2025.
1233:M8.2.5	Compliance Reporting	The Compliance Assessment Plan must indicate: 5. the table of contents of Compliance Assessment Reports; and public availability of Compliance Assessment Reports; and	Compliance Assessment Plan fulfils Condition 8.2.5	Written correspondence confirming approval of Compliance Assessment Plan	Overall	For the life of the proposal	C	Compliance Assessment Plan submitted on the 12 September 2025 and accepted on the 25 November 2025.
1233:M8.2.6	Compliance Reporting	The Compliance Assessment Plan must indicate: 6. public availability of Compliance Assessment Reports.	Compliance Assessment Plan fulfils Condition 8.2.6	Written correspondence confirming approval of Compliance Assessment Plan	Overall	For the life of the proposal	C	Compliance Assessment Plan submitted on the 12 September 2025 and accepted on the 25 November 2025.
1233:M8.3	Compliance Reporting	The proponent must assess compliance with conditions in accordance with the Confirmed Compliance Assessment Plan.	Compliance Assessment Report and this Compliance Assessment Plan	Compliance Assessment Report	Overall	For the life of the proposal	C	This Compliance Assessment report has followed the structure included in the accepted CAP on the 25 November 2025.
1233:M8.4	Compliance Reporting	All Compliance Assessment Reports must be retained until the proposal is fully implemented (including decommissioning and rehabilitation) or such other period agreed in writing by the CEO.	All CARs retained until the proposal is fully implemented as per condition 8.4	Retained CARs as per condition 8.4	Overall	For the life of the proposal or such other period agreed in writing by the CEO	C	Compliance Assessment Reports will be stored within the enterprise Document Management System (DMS).
1233:M8.5	Compliance Reporting	Subject to the conditions of this Statement the proponent must advise the CEO of any potential non-compliance within seven (7) days of that non-compliance being known to the proponent.	Communication of the potential non-compliance as per condition 8.5	Communication to the CEO or relevant agency of the potential non-compliance as per condition 8.5	Overall	Within seven (7) days of that non-compliance being known <i>Note: Refer to Section 3 of the CAP</i>	C	No non-compliances were identified during the reporting period.
1233:M8.6	Compliance Reporting	The proponent must submit to the CEO the first Compliance Assessment Report fifteen (15) months from the date of issue of this Statement addressing the twelve (12) month period from the date of issue of this Statement and then annually from the date of	Compliance Assessment Report for the annual period outlined in Section 2.3 submitted as per condition 8.6	CAR submitted to the CEO as per condition 8.6	Overall	First reporting period: 12 December 2024 to 31 December 2025	C	CAR for the first reporting period submitted on the 30 April 2026.

Audit Code	Subject	Requirement (from Ministerial Statement 1233)	How	Evidence	Phase	Timeframe	Status	Further information
		submission of the first Compliance Assessment Report, or at another time agreed in writing by the CEO.				Future reporting periods: 1 January 2026 to 31 December 2026 and annually thereafter Report Submission Dates: 30 April of the year following the annual period <i>Note: Refer to Section 2.3 of the CAP</i>		
1233:M8.7.1	Compliance Reporting	Each Compliance Assessment Report must: 1. be endorsed by the proponent's Chief Executive Officer or a person delegated to sign on the Chief Executive Officer's behalf;	Compliance Assessment Report signed by a person delegated to sign on the Chief Executive Officer's behalf as per condition 8.7.1 and as outlined in Section 2.4 of this CAP	CAR signed as per condition 8.7.1	Overall	For the life of the proposal	C	Appendix B includes the statement of compliance and endorsement signed by the Acting Asset Manager.
1233:M8.7.2	Compliance Reporting	Each Compliance Assessment Report must: 2. include a statement as to whether the proponent has complied with the conditions;	Compliance Assessment Report includes statement of compliance as per condition 8.7.2	CAR includes requirements as per condition 8.7.2	Overall	For the life of the proposal	C	Appendix B includes the statement of compliance and endorsement.
1233:M8.7.3	Compliance Reporting	Each Compliance Assessment Report must: 3. identify all potential non-compliances and describe corrective and preventative actions taken;	Compliance Assessment Report includes all potential non-compliances and describes corrective and preventative actions taken, as per condition 8.7.3	CAR includes requirements as per condition 8.7.3	Overall	For the life of the proposal	C	Section 4 of the CAR focused on this.
1233:M8.7.4	Compliance Reporting	Each Compliance Assessment Report must: 4. be made publicly available in accordance with the approved Compliance Assessment Plan; and	Compliance Assessment Report made available on proponent's website	CAR available for access on proponent's website as per condition 8.7.4	Overall	For the life of the proposal	C	CAR publicly available on the Woodside's website
1233:M8.7.5	Compliance Reporting	Each Compliance Assessment Report must: 5. indicate any proposed changes to the Compliance Assessment Plan.	Compliance Assessment Report includes proposed changes to the CAP as per condition 8.7.5	CAR prepared to fulfil requirements as per condition 8.7.5	Overall	For the life of the proposal	NR	No changes are proposed to the approved CAP.
1233:M8.8.1	Compliance Reporting	The proponent: 1. may submit to the CEO a revision of the Confirmed Compliance Assessment Plan at any time; and	Revision of the Confirmed Compliance Assessment Plan	Submission of the revised Compliance Assessment Plan to the CEO as per condition 8.8.1	Overall	For the life of the proposal	NR	No changes are proposed to the approved CAP.
1233:M8.8.2	Compliance Reporting	The proponent: 2. must submit to the CEO a revision of the Confirmed Compliance Assessment Plan as and when directed to do so by the CEO in writing.	Revision of the Confirmed Compliance Assessment Plan	Submission of the revised Compliance Assessment Plan to the CEO as per condition 8.8.2	Overall	For the life of the proposal	NR	No direction from the CEO in writing regarding updating the CAP.
1233:M8.9	Compliance Reporting	Any revision of the Confirmed Compliance Assessment Plan submitted under condition 8-8 must satisfy the requirements of conditions 8-2(1) to 8-2(6).	Revision of the Confirmed Compliance Assessment Plan submitted under condition 8.8 will satisfy condition 8.9	Submission of the revised Compliance Assessment Plan as per condition 8.9	Overall	For the life of the proposal	NR	No changes are proposed to the approved CAP.
1233:M8.10	Compliance Reporting	The proponent must implement the latest revision of the Confirmed Compliance Assessment Plan.	Implement the confirmed Compliance Assessment Plan	Compliance Assessment Report	Overall	For the life of the proposal	C	CAR developed as per the approved CAP.

Audit Code	Subject	Requirement (from Ministerial Statement 1233)	How	Evidence	Phase	Timeframe	Status	Further information
Public Availability of Data								
1233:M9.1	Public Availability of Data	Subject to condition 9-2 and the conditions of this Statement, within a reasonable time period approved by the CEO in writing and for the life of the proposal (including decommissioning and rehabilitation) the proponent must make publicly available, in a manner approved by the CEO, all validated environmental data (including sampling design, sampling methodologies, empirical data and derived information products (e.g. maps)), management plans and reports relevant to the assessment and implementation of this proposal.	Validated environmental data, management plans and reports relevant to the assessment and implementation of this proposal will be publicly available within the applicable CAR, or on the proponent's website for the preceding annual period within 3 months of the CAR being submitted as per condition 8-6.	Validated environmental data, management plans and reports relevant to the assessment and implementation of this proposal are publicly available within the applicable CAR, or on the proponent's website as per condition 9.1	Overall	Within a reasonable time period approved by the CEO in writing and for the life of the proposal	C	Current revisions of Management Plans (AQMP, CHMP, MEQMP) are available on the Woodside website. This CAR (including validated environmental data in the Appendices) will be made available on the Woodside website. Other environmental monitoring reports, relevant to the current reporting period, will be made available on the Woodside website within 3 months of this CAR being submitted, per the approved CAP.
1233:M9.2	Public Availability of Data	If any data referred to in condition 9-1 contains particulars of: 1. a secret formula or process; or 2. confidential commercially sensitive information; the proponent may submit a request for approval from the CEO to not make these data publicly available, including an explanation for why the proponent considers the data should not be made publicly available.	Where applicable, a request to the CEO as per condition 9.2	CEO's approval of proponent's request as per condition 9.2	Overall		NR	

APPENDIX B: STATEMENT OF COMPLIANCE AND ENDORSEMENT

This Compliance Assessment Report is submitted by Woodside Energy (the Proponent) in accordance with Conditions 8-6 and 8-7 of Ministerial Statement 1233 (MS1233).

As set out in this Compliance Assessment Report, the Proponent is compliant with the conditions referred to in MS1233.

I, Perrine Lombart (Acting Asset Manager) of the North West Shelf Project, endorse this Compliance Assessment Report.

Signed: 

Date: 30/04/2026

*NO_x concentration units in mg/m³ as total NO_x (combined NO and NO₂) referenced to standard temperature (0°C) and pressure (101.325 kPa), dry, adjusted to reference Oxygen (15% or 7%).

**1KT1450 is voluntarily sampled and tracked by Woodside for NO_x concentrations in place of 2KT1450 since LNG Train 2 retirement in November 2024.

APPENDIX G: AIR EMISSIONS – DARK SMOKE

Date	Time Commenced	Source Location	Cause	Ringelmann Scale	Duration (minutes)
14/01/2025	9:36:00	Domgas	Plant start up and trip (6K2001)	2	24
2/03/2025	11:15:00	Domgas	De-pressuring unit prior to start of 1K2420	3	2
29/04/2025	13:06:00	Fractionation	2K1820 compressor de-pressure for startup post trip event.	4	7
3/05/2025	8:17:00	LNG	Trip LNG Train 1 to recycle for LOC management.	4	1
16/05/2025	13:40:00	LNG	Proactive trip of LNG5, LNG3 and LNG1 in response to offshore NRC trip.	2	90
3/08/2025	6:40:00	Domgas	Process upsets in DG, flaring until standby equipment started.	2	130
4/08/2025	15:31:00	Domgas	2K2430 MOTI test on depressuring valve, operational flare out of service for maintenance and flare lines contained some heavier hydrocarbons from campaign maintenance carrying out drainage	4	1
8/08/2025	12:40:00	Domgas	Stabiliser startup	2	63
29/08/2025	8:54:00	LNG	234PCV04 opened causing tank overpressure, maintenance being performed at the time.	1	16
29/08/2025	9:13:00	LNG	LNG5 Turnaround, Planned ESD	1	11
9/10/2025	5:15:00	Ship Loading	LNG vessel gas up with dark smoke during test and proving period.	2	90
17/10/2025	16:41:00	Domgas	Unplanned trip of 1K2001 compressor.	2	5
6/12/2025	10:01:00	LNG	Offshore outage requiring LNG5 to be tripped due to lack of feed gas.	1	7

Annual 95th percentile concentration¹		7.5	6.8	1.0	161	0.19	1.78	0.5	0.05	109	7.8	0.05	1.40	5

NOTE 1 – EQGs are based on annual 95th percentile concentrations, with the exception of pH, which is based on annual median concentrations.

NOTE 2 – Results shaded are less than test detection limit (<LOR). However, converted to 0.5 LOR to enable an annual EQG to be calculated.
