Information

This presentation has been prepared by Woodside Energy Group Ltd (“Woodside”). All information included in this presentation, including any forward-looking statements, reflects Woodside’s views held as at the date of this presentation and, except as required by applicable law, neither Woodside, its related bodies corporate, nor any of their respective officers, directors, employees, advisers or representatives (“Beneficiaries”) intends to, undertakes to, or assumes any obligation to, provide any additional information or update or revise any information or forward-looking statements in this presentation after the date of this presentation, either to make them conform to actual results or as a result of new information, future events, changes in Woodside’s expectations or otherwise. Past performance (including historical financial and operational information) is not necessarily a reliable indicator of future performance.

This presentation may contain industry, market and competitive position data that is based on industry publications and studies conducted by third parties as well as Woodside’s internal estimates and research. While Woodside believes that each of these publications and third-party studies is reliable and has been prepared by a reputable source, Woodside has not independently verified the market and industry data obtained from these third-party sources and cannot guarantee the accuracy or completeness of such data. Accordingly, undue reliance should not be placed on any of the industry, market and competitive position data contained in this presentation. To the maximum extent permitted by law, neither Woodside, its related bodies corporate, nor any of their respective Beneficiaries, assume any liability (including liability for equitable, statutory or other damages) in connection with, any responsibility for, or make any representation or warranty (express or implied) as to, the fairness, currency, accuracy, adequacy, reliability or completeness of the information or any opinions expressed in this presentation or the reasonableness of any underlying assumptions.

No offer or advice

This presentation is not intended to and does not constitute, form part of, or contain an offer or invitation to sell to Woodside shareholders (or any other person), or a solicitation of an offer from Woodside shareholders (or any other person), or a solicitation of any vote or approval from Woodside shareholders (or any other person) in any jurisdiction. This presentation has been prepared without reference to the investment objectives, financial and taxation situation or particular needs of any Woodside shareholder or any other person. The information contained in this presentation does not constitute, and should not be taken as, financial product or investment advice. Woodside encourages you to seek independent legal, financial, taxation and other professional advice before making any investment decision.

This presentation shall not be distributed, transmitted, published, reproduced or otherwise made available to any other person, in whole or in part, directly or indirectly, for any purposes whatsoever. In particular, this presentation and the information contained herein may not be taken or transmitted, in, into or from and may not be copied, forwarded, distributed or transmitted in or into any jurisdiction in which such release, publication or distribution would be unlawful. The release, presentation, publication or distribution of this presentation, in whole or in part, in certain jurisdictions may be restricted by law or regulation, and persons into whose possession this presentation comes should inform themselves about, and observe, any such restrictions. Any failure to comply with these restrictions may constitute a violation of the laws of the relevant jurisdiction. Woodside does not accept liability to any person in relation to the distribution or possession of this document in or from any such jurisdiction.

Forward-looking statements

This presentation contains forward-looking statements. These statements may relate Woodside’s business, goals, targets, aspirations, plans, expectations, market conditions, results of operations and financial condition. All statements, other than statements of historical or present facts, are forward-looking statements and generally may be identified by the use of forward-looking words such as ‘aim’, ‘anticipate’, ‘aspire’, ‘believe’, ‘estimate’, ‘expect’, ‘forecast’, ‘foresee’, ‘guidance’, ‘intend’, ‘likely’, ‘may’, ‘objective’, ‘outlook’, ‘pathway’, ‘plan’, ‘potential’, ‘project’, ‘schedule’, ‘seek’, ‘should’, ‘strategy’, ‘strive’, ‘target’, ‘will’ and other similar words or expressions. Forward-looking statements in this presentation are not guidance, forecasts, guarantees or predictions of future events or performance, but are in the nature of future expectations that are based on management’s current expectations and assumptions. Those statements and any assumptions on which they are based are subject to change without notice and are subject to inherent known and unknown risks, uncertainties, assumptions and other factors, many of which are beyond the control of Woodside, its related bodies corporate and their respective Beneficiaries. If any of the assumptions on which a forward-looking statement is based were to change or be found to be incorrect, this would likely cause outcomes to differ from the statements made in this presentation.

Important factors that could cause actual results to differ materially from those in the forward-looking statements include, but are not limited to, fluctuations in commodity prices, actual demand for Woodside’s products, currency fluctuations, geotechnical factors, drilling and production results, gas commercialisation, development progress, operating results, engineering estimates, reserve and resource estimates, loss of market, industry competition, environmental risks, climate related risks, physical risks, legislative, fiscal and regulatory developments, changes in accounting standards, economic and financial markets conditions in various countries and regions, political risks, the actions of third parties, project delay or advancement, regulatory approvals, the impact of armed conflict and political instability (such as the ongoing conflict in Ukraine and in the Middle-East) on economic activity and oil and gas supply and demand, cost estimates, the effect of future regulatory or legislative actions on Woodside or the industries in which it operates, including potential changes to tax laws, the impact of general economic conditions, inflationary conditions, prevailing exchange rates and interest rates and conditions in financial markets, and risks associated with acquisitions, mergers and joint ventures, including difficulties integrating businesses, uncertainty associated with financial projections, restructuring, increased costs and adverse tax consequences, and uncertainties and liabilities associated with acquired and divested properties and businesses.

Disclaimer

Forward-looking statements (continued)

A more detailed summary of the key risks relating to Woodside and its business can be found in the "Risk Factors" section of Woodside's most recent Annual Report released to the Australian Securities Exchange and in Woodside's most recent Annual Report on Form 20-F filed with the United States Securities and Exchange Commission and available on the Woodside website at <https://www.woodside.com/investors/reports-investor-briefings>. You should review and have regard to these risks when considering the information contained in this presentation.

Investors are strongly cautioned not to place undue reliance on any forward-looking statements. Actual results or performance may vary materially from those expressed in, or implied by, any forward-looking statements.

Climate strategy and emissions data

All greenhouse gas emissions data in this presentation are estimates, due to the inherent uncertainty and limitations in measuring or quantifying greenhouse gas emissions, and our methodologies for measuring or quantifying greenhouse gas emissions may evolve as best practices continue to develop and data quality and quantity continue to improve.

Woodside "greenhouse gas" or "emissions" information reported are Scope 1 greenhouse gas emissions, Scope 2 greenhouse gas emissions, and/or Scope 3 greenhouse gas emissions, each on a net equity basis, unless otherwise stated.

For more information on Woodside's climate strategy and performance, including further details regarding Woodside's targets, aspirations and goals and the underlying methodology, judgements, assumptions and contingencies, refer to Woodside's 2025 Climate and Sustainability Summary, available on the Woodside website at <https://www.woodside.com/sustainability> and the Sustainability Report in Woodside's most recent Annual Report.

The footnotes to this presentation may provide clarification regarding the use of terms such as "lower-carbon" under Woodside's climate strategy. A full glossary of terms used in connection with Woodside's climate strategy is contained in Woodside's latest Annual Report.

Other important information

All references to dollars, cents or \$ in this presentation are to US currency, unless otherwise stated. References to "Woodside" may be references to Woodside Energy Group Ltd and/or its applicable subsidiaries (as the context requires). This presentation does not include any express or implied prices at which Woodside will buy or sell financial products. A securities rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.

Reminders

- Respect the opinions of all Karratha CLG members and treat members with courtesy and respect.
- Declare any perceived or actual conflicts of interest or feel free to step out of the room for certain agenda items.
- Disseminate project information, status and direction within your community, organisation or network, and convey feedback to CLG meetings.

Values moment

Operations update

Operations update

Planned maintenance campaigns

- 2026 will see significant activity across operations and projects, this includes major planned maintenance campaigns at both Pluto LNG and Karratha Gas Plant.
- The turnaround at the Woodside operated Pluto LNG facility involves temporary shutdown of parts of the facility so inspections, repairs and upgrades can be completed safely. This work cannot be done while the plant is operating.
- We expect a temporary workforce increase in Karratha from 1 May to 4 June to support this turnaround activity.
- To minimise impact to the community, we plan to prioritise use of village accommodation where possible, bus workforce to and from our assets and reinforce our expectation that people working at our facilities engage respectfully at work and in the community.

KGP record low flaring performance

- In 2025, Woodside achieved its lowest-ever annual flaring level at Karratha Gas Plant with flared quantities less than 10% of their peak in 2013.
- In 2025, we implemented solutions to reduce our daily flaring by removing permanent gas supply to the flare, as well as optimising LNG plant maintenance and equipment restart improvements.

Local participation

We welcomed 23 Karratha-based recruits to the Training Academy.

13 are local school leavers

2 school-based trainees

This year also marks the 1,000th participant supported through our long-standing partnership with Programmed.

Project update – The year of commissioning and start up

- Civil, steel and piping installation nearing completion
- Electrical and Instrumentation has most work to go
- Mechanical, pipe testing, insulation and fireproofing tracking well
- Target First Cargo and Project completion in Q4 2026
- ~2,300 Bechtel employees / ~1800 on site average
- 40 buses running each day to and from site, with shopping and social bussing running regularly – almost 30,000 social trips in 2025.
- Camp average ~1800 per week
- Medical Services well utilised – average over 3,000 visits per quarter

Local Content

- 110 local Karratha businesses engaged directly by Bechtel – representing a commitment value of more than \$150 million
- Employee spend data estimates \$4.2 million spent in the community in 2025
- Community event participation includes:
 - Clean up Australia Day
 - \$100,000 Greening Karratha sponsorship
 - Red Earth Arts Festival
 - KDCCI Events & Awards Sponsorship
 - Karratha Career Expo
 - FeNaCLNG festival
 - NAIDOC Events
 - Gaelic Football
 - Elders Birthday
 - Elimination of Violence Against Women Fundraising Events
 - Salvation Army Food Drives
 - Community Sports Participation
 - City to Surf
 - Pilbara Colts Sponsorship
 - Dampier Art awards Sponsorship
 - ANZAC Day
 - Walk for Reconciliation & Cultural Heritage Tours
 - BuyLocal sponsorship
 - Volunteering activities

Community contribution

Community contribution

Roebourne District High School

- Celebrated the opening of new secondary school facilities at Roebourne District High School.
- The build is supported by Woodside's \$20 million contribution through the WA Government's Resources Community Investment Initiative (RCII).
- In 2025, Woodside invested more than A\$5.7 million in programs delivering benefits in Roebourne, with an additional A\$20 million committed through the RCII. Examples include: Karratha and Roebourne Education Initiative, One Tree Community Services, FORM – Roebourne Arts Initiative.

Housing

- The Woodside-operated North West Shelf and Pluto LNG are each undertaking careful planning to ensure their workforces can be accommodated in Karratha, balanced with the need to take into account pressures on the local housing market.
- Our housing portfolio is currently close to capacity at more than 95% occupancy.

Environment Plan Consultation

Sarah-Jayne Morgan

Woodside consultation

Woodside consults relevant persons in the course of preparing our Environment Plans (EPs) to:

- Notify about the proposed activity.
- Seek input to assist Woodside to confirm current measures or identify additional measures, if any, that could be taken to lessen or avoid potential adverse impacts and risks of the proposed activity on the environment.

Find out more or provide input?

- You may be a relevant person if you or your organisation have functions, interests, or activities that may be affected by an offshore petroleum activity proposed under an EP. Woodside identifies relevant persons or they can self-identify.
- For Commonwealth EPs, Woodside’s assessment of relevant persons and consultation on EPs is based on the Environment that may be affected (EMBA). The EMBA is the largest spatial extent where unplanned events, no matter how unlikely, could potentially have an environmental impact.
- For State EPs, Woodside’s assessment of relevant authorities and other relevant interested persons or organisation is based on the Operational Area.

Scan the QR code or visit [woodside.com/consultation-activities](https://www.woodside.com/consultation-activities) to access our consultation information.

Let's Talk

Our Plans, Your Say

Edition 6 | October 2025

The rundown

Goodwyn Area Infill Development Offshore Project Proposal gets the green light

Following NOPSEMA's acceptance of the Goodwyn Area Infill Development Offshore Project Proposal (GWA OPP), Woodside is planning to develop new gas wells about 140 km north-west of Karratha.

The development will make better use of space at the Goodwyn A platform by bringing in extra gas and condensate from up to 8 new wells.

This is a phased development expected to deliver first gas in 2027-2028.

Environment Plans (EPs) supporting the development include:

- Goodwyn Alpha Geophysical and Geotechnical Surveys (Rev 2)
- Greater Western Flank Phase 4 (GWF-4) Drilling and Subsea Installation – consultation closed 27 August 2025.

We currently anticipate consulting on a revision for the GWA Operations EP that will include the proposed new wells in the first half of 2026.

To stay updated, subscribe for future editions at [woodside.com/what-we-do/consultation-activities](https://www.woodside.com/what-we-do/consultation-activities)

Upcoming engagement opportunities

Woodside is consulting with local community members at events, making it easy to speak to us about our operations, decommissioning activities and proposed projects.

If you're interested in what Woodside has planned on land and sea, come and chat to our friendly teams at the locations below, follow the Woodside North West Facebook page or email us at: consultation@feedback.woodside.com

Dampier

- Dampier Beachside Markets
Saturday, 18 October and
8 November 5:30pm to 8:30pm
Hampton Oval, Dampier, WA, 6713

Exmouth

- Exmouth Community Markets
Sunday, 5 October 8:00 am to
12:00 noon Federation Park,
Exmouth, WA, 6707

Environment Plan Consultation

Upcoming Consultation				
Environment Plan	Activity Type	Description	Location	Consultation Dates
CK4 & LH3 Well Intervention	Other	Light well intervention activities on the two well	~ 135 km north-west of the town of Dampier	April – May 2026
GWA Operations	Operations	Five-year revision of the in-force EP covering dry gas and condensate production	~ 138 km north-west of Dampier	April – May 2026
Browse Geotechnical and Geophysical Surveys	Surveys	Geophysical and Geotechnical survey of proposed development area	~ 370 to 430 km north-northwest of Broome ~ 120 km north-west of Dampier	April – May 2026

CK4 and LH3 Well Intervention EP

CARNARVON BASIN, NORTH-WEST AUSTRALIA

Overview

- Woodside is preparing the CK4 and LH3 Well Intervention EP.
- The EP covers light well intervention activities on CK4 (Cossack-4H) and LH3 (Lambert-3) using a light well intervention vehicle, support vessels and helicopter operations. The wells operate under the accepted Okha Floating, Production, Storage and Offloading (FPSO) Facility.
- The Operational Area is located ~ 135 km north-west of Dampier.

Proposed activities

- Light well intervention activities including a temporary well suspension Xmas tree changeout and recommissioning and potential Tubing Retrieval Safety Valve remediation.
- Preparation and support activities such as inspections and cleaning.
- Well start-up and production following the intervention activities will be managed under the accepted Okha FPSO Facility Operations EP.

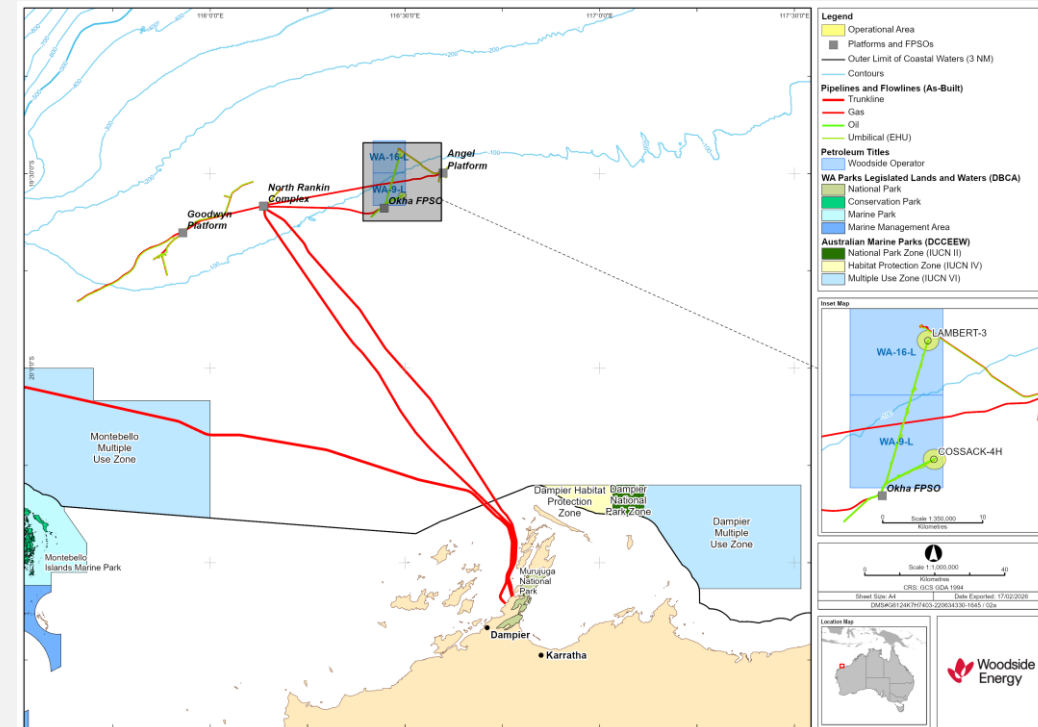

We want to hear from you

We are seeking input from relevant persons whose functions, interests or activities may be impacted.

Find out more or provide input

Learn more about the EP at [woodside.com/what-we-do/consultation-activities](https://www.woodside.com/what-we-do/consultation-activities)

If you would like to comment on the proposed activities please contact Woodside via:
